DETAILED ACTION

Claims 1-4 are presented for examination.

Oath/Declaration

The S-signature, as defined in 37 CFR 1.4(d)(2), is required to be electronically or mechanically inserted between forward slash marks.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure, which goes to make up the device, must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Toh et al., (U.S. Patent No. 6,988,199 and Toh hereinafter).

Regarding claim 1, Toh discloses use of unique keys maintained by third party to end users for classification of email (col. 13, lines 15-57).

Regarding claim 2, Toh discloses specific email server and client plug-ins to be developed to support portability (col. 1, lines 59-67 and col. 2, lines 1-35).

Regarding claim 3, Toh discloses system of email forwards to support universal portability (col. 1, lines 59-67 and col. 2, lines 1-35).

Regarding claim 4, Toh discloses method of automatic renewal of email user keys through email update (col. 13, lines 57-67 and col. 14, lines 1-38).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see the attached PTO-892 for a complete listing.
